## THE COAL MINERS FAVOR HARMONY

Mitchell Does Not Think There Will Be Any Division of Sentiment.

## ALL IS NOW SERENE

Talk That Bituminous Miners Not in Sympathy, Laughed at by Leaders.

## THE POLICE LEAVING

Wilkesbarre, June 20.—Leaders of the anthracite miners strike here attach little or no importance to the effect that the bituminous miners are far from being unanimously in favor of a general strike. They say when the joint convention meets in Indianapolis it will be found that the bituminous men will stand loyal to the mine workers' organization.

Delay Meeting  
It is now said that Mitchell's main reason for waiting a month for the National convention was that a perfect understanding of the facts might be obtained before the delegates to the convention are instructed.

### Opposition Talk

Talk in the district by some men, claiming to know the feeling in the soft coal region declare the bituminous workers in Ohio, Indiana, Illinois, Iowa and Pennsylvania will oppose the request to strike and aid the anthracite workers, and the half organized districts of Michigan, Kentucky, West Virginia and Virginia.

The organized miners have an interstate wage agreement, which is satisfactory, which it took many years to win. They would also violate the moral obligation to keep their contracts, and they would, if defeated, have to begin the work of years over again. The operators will consider a strike as violating the contracts, and, if beaten, the soft coal men would have to return to work under any condition the operators might impose.

There is, however, despite the opposition of the five central states with their 136,453 thoroughly organized workers, commanding 1,364 votes, a sufficient number of votes (1,400) in the anthracite district alone to overcome their combined strength, while the soft coal states which are now on strike, if but half organized, will furnish 160 votes. Altogether the states at present on strike can enter the convention with a close majority if they instruct solidly for a strike.

This has evidently prevented President Mitchell from calling the convention during the five weeks he has held the requests; it is why a month is allowed in which to do preliminary work which two weeks could accomplish.

### Mitchell Wants a Strike.

Mitchell wants a strike; this is said on good authority, for apparently it is the only means now to prevent a defeat in this region, in the Virginias, Michigan and Kentucky, but he is afraid of a split in the union.

A revolt headed by one of the biggest officers under Mitchell is not improbable. The strike order would be his weapon and he would sweep the anti-strike states away from the United Mine Workers into a bituminous workers' union, retaining the present contracts and retaining the present work and wages.

The organized districts of Pennsylvania, Ohio, Illinois, Indiana and Iowa produce 98,769,825 tons of coal a year, while the non-union districts of Pennsylvania, Kentucky, West Virginia and Virginia mine 70,327,000 tons, yearly. This amount could be placed in the anthracite markets. The result would be the annihilation of the strike and the downfall of Mitchell, so operators here believe.

The one chance of success, according to expert students of the conditions, is that an immense wave of unionism will sweep all soft coal workers and all railroaders into a gigantic struggle in behalf of the 165,000 mine workers' union strikers.

The operators deny as absurd the rumor that they will soon start to mine coal.

President Mitchell spent two hours in conference with President W. R. Russell and Secretary W. D. Ryan of the Illinois soft coal district. They refused to talk of the results of the conference, saying they discussed western matters.

### Five Nonunionists Killed.

Roanoke, W. Va., June 20.—Five miners who persisted in working in the mines at Williamson, W. Va., were killed by strikers, who hurled dynamite into a shaft after the nonunion men refused to come out.

### ACCIDENT NARROWLY AVOIDED.

Broken Rail Discovered on C. & N. W. Tracks Near Beloit

Beloit, Wis., June 20.—(Special)—Last evening when the 6:30 C. & N. W. train pulled into Beloit, the conductor noticed that something appeared to be the matter with the rails. After the train stopped he investigated and found that the top flange on one rail had been torn off for a distance of fourteen inches. Had the train been running at full speed a bad accident would have been inevitable.

## EASTERN COLTS ARE FAVORITES

Great American Derby in Chicago Tomorrow Calls for Speed.

## HENO. THE CHOICE

McChesney Is Out of the Running, and Horse from Atlantic Coast May Win.

## NO AUTOMOBILES

Chicago, Ill., June 20.—(Special)—Tomorrow is Derby day. From the Atlantic coast to far-away California the pick of the horse flesh of the country will face the starter's flag at Washington park Saturday. Horses trained to the pink of perfection, bred in the stables of millionaires and on the blue grass meadows of Kentucky will meet in what is now the classic event of the United States—the American Derby.

The races will be the society event of the summer for Chicago and even now the hotels are crowded with visitors from outside. Prices are up and carriages and rigs for the afternoon of the races are at a premium, the fixed price at present being \$50 for the few hours of the racing.

No Automobiles

The management of Washington park have decided not to allow automobiles in the park during the opening day and the scene will be one in which "King Horse" rules supreme. At present it is estimated that a crowd of 75,000 people will witness the great event.

Heno Favorite

Great preparations have been made for the event and thousands of dollars will be won and lost on the great race itself. At present Heno, the great eastern colt, is the favorite at 2 to 1 with Arsenal and Pentoost second choice. McChesney and Lucky Baldwin's horse have been drawn and the probability is that but eleven starters will face the flag.

The Odds

The horses and their odds given by the bookies this morning are as follows:

Probable Derby Field.

Horse	Weight	Jockey	Odds
Heno	122	Bullard	2 to 1
Arsonal	122	Redman	4 to 1
McChesney	122	O'Connor	4 to 1
Heno's Comander	122	Knight	8 to 1
Hermis	122	McCue	10 to 1
Wreath	122	Lynn	10 to 1
Ollie	122	Singleton	12 to 1
Land Quix	122	St. Woods	12 to 1
McLean Applby.	122	Blanchard	12 to 1
Proctor	122	Davidson	25 to 1
Corrigans	122	Ransch	40 to 1

## BADGER JUNIORS ARE FAVORITES

Wisconsin Freshmen Expect to Win at Poughkeepsie—Cornell Seniors Send in Betting.

Poughkeepsie, N. Y., June 20.—(Special)—Yesterday was ideal for rowing, and every crew was out on the river twice, including Wisconsin, which had been out only once daily since Monday.

In the morning the badgers took a three mile spin, followed by the freshmen for a couple of miles. The form was smooth and the appearance of the crew the best it has been since their arrival. In the afternoon the varsity crew paddled two miles up the river and back two miles to the starting point. The time was not given out, but it is understood to be good. The stroke used was a 34, with a 36 for the sprint at the end.

Captain Gaffin and the other oarsmen consider today's work the best the crew has done, and that the men are getting better together than at any time this year. Coach O'Dea simply expressed his satisfaction with the condition of things.

No racing starts have been practiced as yet, and indications are that the competition will be close.

There is an almost unanimous sentiment among the rowing men that the Wisconsin freshmen are favorites in the race. At the Columbia float this afternoon, the freshmen were mistaken on form for the varsity.

Betting is beginning. Cornell is such a favorite that the Ithacans cannot put up any money. Columbia is betting even against Wisconsin and Pennsy. Cornell and Columbia are betting even on their freshmen crews and demanding slight odds from Wisconsin.

Odds on the proportion of Wisconsin freshmen against the field are about 3 to 5.

In a mile race from the bridge to the finishing point today the Cornell varsity beat their freshmen three lengths. Wisconsin has never been able to leave her freshmen perceptibly in a mile and this looks well for the youngsters.

Coach Courtney of Cornell, said today: "My varsity crew has been overestimated. I realize that we have a good crew, but the papers have overestimated the crew's ability. I am satisfied with their work, but do not make any predictions."

## PREMATURE BOOM

Started by Memphis Politicians Two Weeks Ago, Is Now

## NIPPED IN THE BUD

Memphis, June 20.—Richard Olney, whom the Olney club of Memphis has endorsed for the presidency two weeks ago, has declined to come to this city to deliver an address, saying that he is not a candidate for the presidency and the acceptance of the invitation would place him in a wrong light.

## CLEVELAND HAS PARTY WITH HIM

His Speech Last Night Approved by Democratic Leaders in Washington and Elsewhere.

Washington, D. C., June 20.—Ex-

Pres. Cleveland's speech last night is much discussed among the house democrats today and commended by many. Floor Leader Richardson said that he had nothing but good to say of it. It was quite to the point he declared, and altogether a democratic speech and if the democrats are to get together they must get together, that's all.

The house has not yet been canvassed on the Isthmian canal situation but the opinion of the most of the leaders is the Spooner amendment will be accepted.

APPORTIONMENT VALID SAYS SUPREME COURT

Declares It Was a Proper Exercise of Legislative Power by General Assembly.

Springfield, Ill., June 20.—The supreme court made short shrift of the Democratic state committee's suit to set aside the apportionment of the last legislature. It had the case under consideration just two hours, and without a dissenting vote and without the formality of a written opinion, it dismissed the proceeding.

Justice Boggs was authorized to announce the opinion, which he confined to a perfunctory statement that, on the showing of the relator, the court held that the apportionment act was a proper exercise of legislative power by the general assembly. He gave no indication of the line of reasoning followed by the court, nor did he intimate what the written opinion would contain.

It is expected that it will follow the decision given on the act of 1893.

The suit was in the nature of a petition for a writ of mandamus to require the county clerk of McLean county to certify to the nomination of J. F. Hefner as a Democratic candidate for the legislature in the old McLean county district. The committee had decided that because of the inequalities of the apportionment there was serious question as to its legality.

## BISHOP NICHOLSON CONDEMNED TOBACCO

Declares It a Pity That Ship Which Carried Sir Walter Raleigh Did Not Sink in Midocean.

Milwaukee, Wis., June 20.—"If it is true that Sir Walter Raleigh introduced tobacco into England, 'tis a pity that the ship which carried him did not sink in the ocean," says Rt. Rev. Isaac Lea Nicholson, bishop of the Episcopal diocese of Milwaukee, in an article in the *Living Church*. This pronunciamento against tobacco created a mild sensation among the priests of this diocese, most of whom love a good cigar or a pipe. While it is not issued in the form of a decree against the use of tobacco, it carries enough weight to make some of the habitual tobacco users uneasy. The bishop himself does not use tobacco in any form and maintains that there is not one trace of spiritual help or physical gain from the use of tobacco, but that, on the contrary, told evils have resulted from its use.

## STRONG ASSEMBLY PROGRAM PLANNED

Some Splendid Attractions Secured for the Delavan Lake Session. This Summer.

Programs for the fifth annual session of the Delavan Lake assembly have been issued, the prospectus being an attractive pamphlet, liberally illustrated. The coming session, which will be held July 30th to August 10th, both ways inclusive, promises to be in every way an unequalled success. The management has been particularly fortunate in securing a strong array of talent, lecturers, entertainers, musicians and instructors and each of the twelve days of the session will be full of interest and instruction.

Senator John M. Whitehead will be one of the leading lecturers and his address on "Civic Forces," which will be given on the afternoon of July 31st, will be one of the strongest attractions of the session.

Will Hear Miss Stone.

Miss Ellen M. Stone, the ransomed missionary, will relate her thrilling experiences on the opening day of the session. Among the other features will be Karl Germaine, the magician, Fred M. Stone, the veteran lecturer; John S. Van Cleve, Col. Geo. W. Bain, John W. Lince, musical director, and Miss Ruth Cochrane, accompanist, Bell Kearney, the temperance advocate; Frank A. Catter, Dr. D. F. Fox, a prominent Chicago clergyman, Mrs. Frances F. Herbert, who will have charge of the children's department in Bible history, Mrs. A. E. Shipley, Miss F. Wheeler, an instructor at Northwestern University, Rev. C. F. Aked, D. D. from Liverpool; Dr. Sylvester Burnham, Lorando Taft, the great sculptor, Dr. E. B. Jones, Amos P. Wilder and Reno B. Welburn, one of the men who bought wireless telegraphy to pass.

### Splendid Musical Features

The Schuman Ladies' quartet, with Miss Elma B. Smith, impersonator, the Beloit Ladies' quartet, Buss & Kopp's Ideal orchestra, of Chicago, and moving pictures by the Edison projectoscope will furnish splendid entertainment.

### JANESVILLE GRADUATES

### Special to Colliers Weekly.

William Jennings Bryan expressed belief that dangerous dissensions exist among the political parties in Cuba and his predictions of Civil War in the Island, is making no end of trouble for the Cuban President.

That Señor Palma is personally anxious to dispute the possible doubt concerning the stability of the present Cuban government, implanted in the American mind by Mr. Bryan's statement, and to convey assurances that there is no probability of internecine war in Cuba, is shown in the following cable dispatch which the President sent last night to Colliers Weekly, the paper in which Mr. Bryan's views were printed.

The following Señor Palma message:

"To the Editor of Colliers Weekly, New York:

"I understand that William Jennings Bryan has made statements in Colliers Weekly indicating his belief that there is not only dissensions among the political parties here in Cuba, but that a certain faction evinces a revolutionary spirit which is bound to lead to Civil War in our new Republic. If Mr. Bryan really thought he heard the distant roll of revolutionary drums and a whispered call to arms in this Island, when he was here, then the people of Cuba, all of us, have cotton in our ears."

"I have received no notices of disturbances or of anything except utmost harmony among all elements."

"Certainly, however, our economical situation is extremely bad. I am aware of a great crying demand throughout the Island among the poorer people for work. At the same time I have every evidence of the people's patience under great suffering and am conscious of their confidence in the future and of their determination to assist my administration through this exceedingly difficult period."

"I believe the Americans will give us the necessary to our prosperity. I thank you for this opportunity to say that I do not believe Cuba will ever have Civil War. Our people simply want peace and work enough to obtain means to live."

(Signed) "ESTRADA PALMA."

### ENTERTAIN PUSH CLUB

#### A Trip Up the River and Picnic and Games

Mr. and Mrs. W. H. Merritt and Mr. and Mrs. John Harlow entertained the members of the Push club in a charming manner at Idlewyld park yesterday afternoon. The party made the trip to the up-river park in the launches Idlewyld and Canfield and the ride on the river was a most delightful feature of the day. The afternoon was spent in games of various kinds a foot race between the fats and the lean which was won by the fats, and a cake walk. John Harlow won the first prize in the ten pin contest. In the playing of chess Mrs. W. H. Merritt won the first prize and Mrs. E. T. Fish, the consolation prize.

An elaborate supper was followed by a moonlight excursion up the river. The members of the club who enjoyed this first outing were Messrs. and Mesdames C. B. Evans, Benjamin Carle, J. B. Stevens, E. T. Fish, J. D. Crawford, David Conger, O. D. Lincoln, W. H. Merritt and J. C. Harlow.

### IMPLEMENT MEN HAPPY

#### Coupling Rains Will Mean Big Sales to Them

The machine men of Janesville are jubilant over the copious rains of late for it means to them a good harvest time in the near future. Already business has felt the impetus of an abundance of moisture, and orders are beginning to pour in for machinery of all kinds. The season gives promise of exceeding its immediate successors by a liberal margin.

### A Carnival of Light

The street illumination of San Francisco during the national gathering of Pythians are to be on such a magnificent scale as to eclipse those of any city in the world. The estimated cost will reach \$30,000 or more, and all will be under the supervision of the City Department of Electricity. The plan includes many novel designs and features, and will be a distinct departure from former efforts. Instead of merely stretching strings of light across the streets, it is intended to group the lighting in seven courts of honor, at certain intervals along the principal thoroughfares. Each court will contain 2,720 incandescent lamps in addition to the street illumination on Market street, which alone will carry 3,840 lights. The insignia of the order, made of vari-colored globes, will be a feature in each of the courts. The grand court of honor, which will be located at the intersection of Market, Geary, Kearny and Third streets, is to contain several thousand lights, one a large emblem reaching from the grand court to the tall buildings near by.

Altogether, this westward pilgrimage of the Knights, August 11th to 20th next, promises to be an event over 100,000 people will then take advantage of the low rates offered by the overland railroads.

## UNION SERVICES HELD IN THE PARK

#### Five Churches Will Unite in Open Air Meetings During the Summer.

After the two Sundays yet to come in this month, there will be one Sunday service in the five evangelistic churches and the Baptist, Presbyterian, Congregational and Methodist churches will be dark and silent on Sunday evenings during the months of July and August. This does not mean that there is to be no evening service for the congregations of these churches for, following the custom of several years past, the pastors have made arrangements for union evening services during the summer months.

### Open Air Services

A rather novel scheme is to be put into practice this year and if the weather permits, the services will all be in the open air, the plan being to hold them in the Court House park. Only in the event of a storm will there be any change in this plan and then one of the churches will be opened.

For several years past, the five churches have united forces during the summer months when evening congregations grow rapidly smaller under the influence of the hot weather and the attraction of summer resorts. During these months the pastors, as well as the people take their annual vacations, but the clergymen usually arrange their vacations so that at least one of the pastors will be in the city every Sunday.

### To Preach in the Park

Heretofore the union services have always been held in the different churches in rotation, the pulpit being filled in each instance by the pastor of some other church. During the excessive hot weather last summer when life inside of a building was almost unbearable adjournment was taken from the church to the Court House park. The experiment proved so successful and attractive and so many people attended the service who would not be induced to enter a church on a warm summer evening that in planning for this year's services, the pastors thought it would be pleasant to have them all out of doors.

### First Service July 6

These open air services will begin on the first Sunday evening in July when the Rev. Robert C. Denison, pastor of the Congregational church will preach. Revs. Richard M. Vaughan, J. T. Henderson, J. H. Tipper and James Churn will officiate in turn and in case these gentlemen should all be absent over anyone Sunday on their vacations, some outside speaker will be secured.

### THE RIGHT THING.

An argument without logic is like a bargain without value. The argument is sound until people find out how false it is, and then it is worse than if it had never been presented as an argument. The bargain may look all right until the customer finds out that it was not worth the price paid and then the customer will remember the merchant that sold that article for a rare value. If the merchant is wise he will allude to bargains that are really worthy and he will make his arguments entirely honest.

J. M. Bostwick & Sons Give a Picnic Supper at Burr Springs. Messrs. J. M. Bostwick and sons R. M. Bostwick and J. L. Bostwick entertained the employees in their dry goods store in a very happy manner last evening, the features of the outfit being an excursion up the river and an elegant picnic supper. The party left this city immediately on the closing of the store at six o'clock and repaired to the boat landing where they boarded to Burr Springs. Here the supper was served after which there was a pleasant social time before the return home. The party included about forty people and they had the jolliest kind of a time.

### CHURCH PICNIC

St. Paul's Sunday School Spends the Day at Crystal Springs.

It was a merry crowd which spent the day at Crystal Springs park yesterday, the occasion being the annual picnic of St. Paul's church and Sunday school. The children of the school marched through the city to the boat landing, preceded by the G. A. R. fife and drum corps. A picnic dinner and supper were served on the grounds and the day was devoted to the amusement of the children. There were games and contests of various kinds and everyone had a happy time. The attendance was very large and many of the party did not return home until late in the evening.

## MORGAN FIGHTS TO THE LAST

Veteran Champion of the Nicaragua Canal Sees the Pet Dream of His Life Wiped Out of Existence in the Upper House.

Washington, June 20.—By a majority of eight votes the senate passed the Spooner bill authorizing the construction of an Isthmian canal along the Panama route. The actual vote was: For Panama, 42; for Nicaragua, 34.

After the Spooner bill had been substituted for the Nicaragua bill, it was passed by the decisive vote of 67 to 6.

The advocates of Panama not only carried their bill by a larger majority than they dared hope for a week ago, but they were successful in every point which they wished to make and they killed all amendments which were distasteful to them.

## Provisions of the Bill.

Among the provisions of the bill which passed the senate the following are the most important:

1. The president of the United States is directed to purchase the property of the new Panama Canal company for a sum not exceeding \$10,000,000 and to obtain a satisfactory concession from the government of Colombia.

2. He is to proceed to construct a canal via the Panama route, operating through a commission of seven members, four of whom are to be engineers and two officers of the army and navy.

3. Ten million dollars is appropriated from the treasury for this purpose and made immediately available.

## Popular Bond Subscription.

4. For construction of the canal the president is authorized to raise \$130,000,000 by the sale of \$20 twenty-year 2 per cent gold bonds, to be sold to the people at large and not through any syndicate.

5. This sum of \$130,000,000 is solely for the construction of the canal. At the proper time congress will appropriate money in addition to the \$10,000,000 carried by this bill to pay for the property of the Panama company and the concession from Colombia.

6. Thus all questions of title, of negotiation, of engineering plans and practical execution of the same are placed in the hands of a compact body of experts, acting under the direction of the president, to carry out the will of congress.

## Canal Is Assured.

7. In case the president shall be unable to secure satisfactory title and concessions on the Panama route within a reasonable time he is to proceed to secure the same via the Nicaragua route. A canal is thus assured by one route or the other.

At 2 o'clock the senate decks were cleared for action. Morgan was then in command and, as usual, he was talking. His last words were defiant.

"If we are to be beaten down here to-day and America is to be disgraced," he said, "I shall have had the honor, and the American people will give it to me after I am dead, or having devoted honestly and sincerely the best labor of my life to the success of our project."

This was the bitter closing of a campaign of a quarter-century, a campaign in which it is estimated Mr. Morgan has fired enough broadsides to fill eighty-three volumes as large as the *Unabridged*. Then came the voting.

## Spooner's Substitute.

Mr. Spooner offered his substitute for the Hepburn, or Nicaragua bill, which had come over from the house. Mr. Bacon's amendment, providing for an Isthmian canal commission of seven members, to take charge of the project, was accepted. The Nicaraguans, knowing the Spooner substitute would be adopted, tried to pave the way for a possible ultimate adoption of their route. They objected to the "reasonable time" within which the president was to acquire the Panama title and concession, and sought to set the limit of six months. They were beaten, 44 to 31. Then they tried a limit of one year, and were beaten, 39 to 35. Next they tried eighteen months, but this time the senate was weary of child's play and would not order a roll call. Mr. Mitchell tried his hand at several amendments providing that "if the president should think it to the best interests of the United States not to acquire the Panama route, then he was to build via Nicaragua," etc., but he was beaten, 42 to 32.

## Jones Votes with Hanna.

Then came the decisive vote on the adoption of the Spooner substitute. The roll call was followed with the most intense interest. When Senator Jones of Arkansas, chairman of the

Democratic national committee, voted with his rival campaign manager, Mr. Hanna, there was a sensation in the chamber.

Mr. Hoar passed his amendment leaving the choice of routes wholly in the hands of the president, but the votes were only 13 and the noes 62.

Mr. Fairbank's \$130,000,000 bond amendment narrowly escaped defeat, being agreed to by a vote of 37 to 36.

Finally Mr. Morgan tottered to his feet and tried to strike out Mr. Spooner's substitute and put in its place his dearly beloved Nicaragua bill, but the result was 41 to 33.

And then the Panama canal bill was passed by a vote of 67 to 6. Senators Bate, Cockrell, Daniel, Dubois, Pettis and Vest, all Democrats, comprising the heroic half-dozen. The big battle of the canals was over.

Yea and Nay.

The vote by which the Spooner substitute was adopted follows:

Yea—Aldrich, Allison, Bard, Bevridge, Burnham, Burrows, Burton, Clark (Wyo.), Culom, Deboe, Dietrich, Dryden, Fairbanks, Foraker, Foster (Wash.), Frye, Gallinger, Gamble, Hale, Hanna, Hansbrough, Hoar, Jones (Ark.), Jones (Nev.), Kean, Kittredge, Lodge, McCormac, McMillan, Mason, Millard, Platt (Conn.), Pritchard, Proctor, Quarles, Scott, Spooner, Teller, Warren, Wellington, Wetmore—42.

Nay—Bacon, Bailey, Bate, Berry, Blackburn, Carmack, Clapp, Clark (Mont.), Clay, Cockrell, Culberson, Daniel, Dubois, Foster (La.), Harris, Hawley, Helfeld, McLaurin (Miss.), Mallory, Martin, Mitchell, Morgan, Nelson, Patterson, Penrose, Perkins, Pettis, Platt (N. Y.), Quay, Simmons, Stewart, Tallaferro, Turner, Vest—34.

House Will Concur.

There is little doubt that the house will accept the senate bill. Senator Morgan said he was weary of the fight and would make no effort to induce the house to stand out against the senate. He is chairman of the conference committee of the present senate, the other two members being Senators Hanna and Kittredge, the Panama leaders. Representative Hepburn, whose name the defeated Nicaragua bill bears, vows he will fight to the bitter end. But conservative men express the opinion that the house will yield.

To agree to the senate's bill is the way to get a canal. Up to this time the Nicaragua zealots have accused the Panama advocates of seeking to delay and to prevent the authorization of a canal. Now the shoe is on the other foot. If the Nicaragua men of the house do not want delay and the risk of having no canal they will agree to the senate bill providing for a water way by the natural, the short, the superior route.

## COST OF ISLAND WAR.

Total to Date, Including Outstanding Obligations, is \$170,326,586.

Washington, June 20.—The total cost of the Philippine war, including outstanding obligations, up to the present date is \$170,326,586. Secretary Root gave out this information in response to the senate resolution of April 17 asking for this information. He explained that \$50,000 was advanced for the expenses of the Philippine commission originally from the United States treasury, but this amount was afterward made good by the Philippine treasury. For railroad transportation of troops and supplies to and from the Philippines since the peace treaty was ratified the cost has been \$4,803,448. Secretary Root says that large quantities of valuable property, such as ships, lighters, etc., horses and mules, wagons and harness, clothing, equipage and ordnance, medical, signal and engineer supplies, the cost of which is included in the foregoing statement, still remain on hand in the Philippine Islands for use.

## Oppose Negro Inquiry.

Washington, June 20.—The Democratic members of the house committee on labor filed a minority report on the bill creating a commission to inquire into the status of the negro race. The minority say that there does not seem to be the slightest necessity for the creation of this commission, nor for considering the status of the negro race apart from other races. "The negro race can never reach its full development," says the report, "until it is permitted by the government to work out its destiny, as do the other races with which it comes in contact."

## Immigration Bill.

Washington, June 20.—The senate committee on immigration has authorized Senator Penrose to make a favorable report on the house immigration restriction bill. An effort will be made to have it considered during the present session.

## Jones Votes with Hanna.

Then came the decisive vote on the adoption of the Spooner substitute. The roll call was followed with the most intense interest. When Senator Jones of Arkansas, chairman of the

## ELEVATOR MEN MEET DEFEAT

## ILLINOIS SUPREME COURT DECLARES THAT WAREHOUSE LAW IS VOID

## NOT IN INTEREST OF PUBLIC

Owners and Lessees of Public Houses Prohibited from Storing Their Own Grain, and Mixing It with That Carried for Customers.

Springfield, Ill., June 20.—By a decision of the supreme court of Illinois handed down yesterday and affecting the grain trade of Chicago, elevator men are prohibited from traffic in their own grain in public elevators. The court declared unconstitutional an act of the legislature which made it lawful for owners and lessees of public warehouses to store their own grain and mix it with the grain of others.

This marks the end of a fight between elevator men and brokers which has been carried through the courts and through the legislature. While both representatives of the elevator and brokerage interests declared that the conditions under which the fight began had changed, and that the law "had become a dead letter," the brokers were rejoicing in their victory over the elevator men.

In giving the decision the supreme court declared that the act of the legislature which made it lawful for the public warehouse owners to store their grain in the elevators "was manifestly not for the protection of producers and shippers of grain, but against their interests."

Purpose of the Law.

"It had for its purpose," continued the decision, "the exemption of public warehouses from the discharge of public duties imposed on them for the protection of producers and shippers, the performance of which is clearly necessary for the protection of such interests."

The act was passed by the legislature in 1897, and was for the purpose of defeating an injunction issued by the Cook county circuit court to prevent the elevator men from storing grain in the public warehouses. Numerous charges were made against the legislature when the act was passed. The attorney general had secured injunctions restraining the firm of Carrington, Hanna & Co. and eight other companies, from storing their own grain in public warehouses. A fine of \$100 had been imposed for violation of this injunction by one of the elevator owners, and the case had been appealed. While it was being heard the legislature passed the act making the injunction lawful and permitting the storing of grain.

Legislature Powerless.

After the cause came to the supreme court Hannah died, but the Northern Trust company, as his executor, was substituted as appellant, and the judgment given runs against the estate.

In rendering the decision Justice Boggs, who wrote the opinion, quotes at length the constitutional limitations on public warehouses and calls attention to the importance attached to this matter by the framers of the constitution. It declares that a public warehouseman of class A could not, under the provisions of the constitution of 1870 and the act of 1871, store his own grain in his own warehouse, grade the same, and mix it with the grain stored there by his customers, and adds: "We entertain no doubt that it was beyond the power of the general assembly to confer on such warehouseman the right and power to do so by the amendatory act of 1897."

## Boy in Chains.

Scranton, Pa., June 20.—Edward Crampel, aged 9 years, was found chained and bound to the floor of his father's barn on Mossie Mountain. The boy had been beaten and his back was in a pitiful condition. The father was arrested. Crampel said that the boy was incorrigible and a thief.

## THE STATE ELECTION

Marinette Eagle: Owing to the tremendous majority with which the Republican party controls the state of Wisconsin, it devolves upon that party to make and keep itself in line with its clear traditions and to compel the men who seek the public's franchise to conform to them.

In the conventions and in the election this summer and fall, the Republicans of the state have a specially urgent duty. A governor has been elected who has proved himself to be unworthy of the high honor bestowed upon him and who has organized a machine to force his re-nomination and re-election. The revolt which has taken place in the state, against the Populist heresies of Mr. LaFollette, is not confined to any section. The whole state is aroused and the voters in caucus and convention are showing that they are not in sympathy with him.

The state of Wisconsin, nor the Republican party, is bound to any one man for life, and the fact that two years ago Robert M. LaFollette was supported, is no reason for his retention longer than his services are regarded as beneficial to the state.

There is no doubt, but the conduct of his administration has been demoralizing and hurtful. Besides, the policy as shown during the meeting of the legislature, to force objectionable laws upon the statute books, the executive has been false to his widely heralded reform views, and made state offices the reward of personal service of himself.

It has not been pleasant to Republicans to have to clean their linen in public, but the Republican party owed it to itself to rid the state of a governor who has been false to his trust.

## GOVERNOR TAFT'S MISSION

The mission of Gov. Taft at the Vatican, is purely a business mission. He is sent to Rome with definite instructions and full power to act for the United States in reference to private property rights vested in the Catholic church through the Friars. There is no other significance about his mission.

The war that was being waged when Dewey landed at Manila, was a war between the natives and the Friars. It was rapidly becoming a war of extermination. Of the 1,200 Friars, who had been long in control and who ruled the people with an iron hand, 800 had been killed or driven from the country and the balance were in hiding.

What would have been the result but for American interference, it is difficult to tell. The Friars owned or controlled the desirable property of the island of Luzon. The title is still vested in the Catholic church. The property represents large tracts of desirable lands, which the natives have long occupied as tenants, paying unreasonable tribute for the privilege.

They now want to buy the land and will do so as soon as a title can be secured. Our Government proposes to perfect the title, and become the agent for the property.

It will require a moneyed investment, but it will be only temporary, as the property can be readily converted into money.

Under American rule, there can be no church and state. This was what cursed the country under Spanish rule. It was all church and no state and the tyranny was unbearable even to barbarous tribes. Governor Taft's mission is important, but he will be equal to the emergency.

## IMBECILITY.

A conference of Superintendents of institutions for the Feeble Minded, was recently held at Fort Wayne, Indiana, and a committee appointed to investigate causes of imbecility.

The state of Indiana has recently passed a law requiring all of its imbecile women between the ages of 16 and 45 be committed for state care. The state discovered that she had 816 women of this class. One of the first cases to be cared for, was a woman with four illegitimate children.

The state of Iowa has just passed a similar law and finds that she has 1000 women to care for. Wisconsin has a population of 3,000 imbeciles and accommodations for less than 800. The new buildings just completed at Chippewa, will be idle in all probability until the legislature meets, for the want of a few thousand dollars, which the governor refuses to grant the board for furnishing.

If there is any work of humanity in which the state can afford to be liberal, it is in the care of this class of unfortunate people. They are a menace to society and a burden to the home.

The plans for Chippewa, when completed, will care for 3,000 inmates. They contemplate a cost of \$600,000, and about one third of this amount has already been invested. The buildings should be completed without delay, both for public safety and for the good of the unfortunate, and the people who care for them.

Flipping coppers may be all right for a pastime, but when it comes to

settling a election contest, the practice lacks both dignity and common sense.

## THE NEW CONSTITUTION

Much has been said about the new constitution in Virginia, and the disfranchisement of the colored race. The legislature provided that the measure should be submitted to popular vote, and the democratic state platform is pledged to the same action, but the Virginia convention in recent session, proclaimed the law in force, and there seems to be no appeal.

This high handed act, deserves severe censure. Virginia may have a large number of colored illiterate voters, but the state also has an army of white voters who are equally ignorant.

If the state is to have a law on illiteracy, it should apply to all classes. The law was passed to return Governor to the senate and to make the state safely democratic.

What the nation needs is a national law on suffrage, based on intelligence and the ability to read the English language. The ignorant colored man who has always been an American citizen, is better qualified to vote, than thousands of ignorant foreigners, who become citizens, and secure the right of suffrage at the behest of some political boss, before they know any thing about the country.

The state of Virginia undoubtedly has the legal right to support the action taken, but in enforcing it she has committed a moral wrong that should be condemned.

## AN OLD WAR CLAIM.

The Methodist church south, recently closed its general conference session at Dallas, Texas. The conference has long been interested in an old war claim, amounting to \$288,000 for damage and loss of the publishing house property which was used by the federal troops at Nashville, during the civil war.

The government finally paid the claim when it was discovered that a lawyer acting as agent, received 35 per cent. of the amount as commission.

The church was severely criticized on the ground that a part of the money was diverted from its proper channel.

The conference devoted considerable time to the discussions of the question and finally proposed to refund the money but the Senate decided that the government had no claim on it. The bill was filed many years ago and the authorities in control of the church today, were not responsible for the acts of their predecessors and did not countenance them.

## JOHN M. WHITEHEAD.

The "Superior" Leader has brought out former Gov. Scofield for governor and his name is being favorably mentioned in a good many other places. That former Governor Scofield would make a good candidate and good governor, we all know. But The Advocate insists that Senator John M. Whitehead is not only the strongest man to oppose LaFollette but he will be the strongest man before the people as a candidate. It must be taken for granted that there is an honest sentiment supporting Gov. LaFollette. It is not all hypnotism and purely political chicanery.

To that honest sentiment Senator Whitehead would be the most acceptable candidate that the republicans could nominate. Senator Whitehead's record on taxation is stronger than LaFollette's or any other man that could be named. His letters discussing state issues has demonstrated that he is a constructive statesman of ability. That he is a decent man should and will not stand against him. The Advocate is for Senator John M. Whitehead for governor first, last and all the time.—Merrill Advocate.

## CORRUPTION IN ST. LOUIS.

The city of St. Louis has long been a hot bed of corruption. The city government was rotten to the core. The people finally became so incensed that they would no longer endure, and so a grand jury was summoned for the express purpose of investigating municipal frauds.

The jury found plenty of business and the third panel has recently completed its work. They discovered among other things, that one company seeking a franchise, had placed \$145,000 at the disposal of the city fathers, and when told that the amount was too small, the sum was increased to \$250,000, which amount was divided among the members.

They also found that large amounts of supplies were bought without advertising for bids, or obtaining a price. Unknown houses and fictitious firms were liberally patronized.

The citizens are thoroughly aroused and the good work will go on until every guilty man is punished.

There are smaller towns than St. Louis, where a grand jury might act to some purpose.

The total caucus vote of Janesville was 1104, of which Senator Whitehead received 778, and Governor LaFollette 316. Fair minded democrats contributed freely to the governor's support, but in spite of their best efforts they only elected two delegates in the district. These were from Johnstown and they will feel a little lonesome in the convention.

There were more republican votes cast in the city of Madison for Senator Whitehead than for Gov. LaFollette. His Democratic constituency of the fair-minded sort, was all that

saved him. The McKinley vote was only 2500, and the caucus vote Tuesday night was 2300 of which Senator Whitehead received 1,080, carrying three wards. Governor LaFollette's name will be "Dennis" in the Convention.

The Town of Rock cast more votes at the caucus than it has republican voters. There will be a hereafter.

## NO APPOLOGIES.

"It was during this feature of the programme," reports the editor of the Independence (Kas.) Reporter, in writing up a wedding, "that the only special emotional feature of the evening occurred.

J. J. Anderson, father of the bride, who had never before shed a tear, found several of them rolling down his sunburned cheeks as he came forward to kiss the bride, remarking that she was his 'last baby.' Immediately several of the ladies began to shed tears, everybody was somewhat excited, and in the slight confusion the writer hereof found himself embracing a lady who stood conveniently near and who proved not his wife. He immediately apologized to the lady and was forgiven. He apologized later on to his wife, with no very definite returns up to this date.

## RHEUMATISM.

The Marion (Ohio) Daily Mirror gives an account of J. W. Simpson, who had been crippled with rheumatism for twenty years so that he could not walk. He received treatment of R. C. Dugan, D. O., and has been gaining for some time, and recently made the trip up town, where he received the congratulations of friends.

This shows what Osteopathy can do even after there has been some structural derangement of the muscles, due to enforced non-use, as in this instance, from rheumatism.

## WORK IS NEARLY ALL COMPLETED

## INTER-URBAN TRACK IS LAID

In a Few Days, the Line Will Be Complete But for the Poles and Wiring.

The work on the Interurban rail way in this city is rapidly nearing completion and another two weeks will see that the work is nearly done, except the setting of the poles for the overhead wire.

The loop, enclosing the blocks bounded by Franklin, Bluff, High and Jackson streets, was completed today and that finishes the surface work from the Jackson street bridge northward, the rails having been laid and the track macadamized between the rails and for two feet on either side.

## Bridge Is Ready

The Jackson street bridge is all ready for the rails and the only work remaining undone inside of the city limits is the laying of the track from the Jackson street bridge along McKey boulevard to the Choate-Hollister furniture factory, a distance of about eighty rods. As there is but little grading to be done along that street the work will be quickly done.

## Cut Finished

South of the Choate-Hollister factory, a cut twenty feet deep for a distance of about twenty rods will be finished by tomorrow night.

At Work on Tunnel.

This week a force began work on the tunnel of the Northwestern rail way about two miles south of the city. This is the only big job remaining to be done between Janesville and Beloit.

The tunnel under the Milwaukee road about four miles this side of Beloit has been completed and the workmen starting from Beloit are now about half way to this city, so in a few weeks it will be able to join hands with the force working south from Janesville, as the rough grading along the route is practically completed.

## Side Tracks In

The side track for the Choate-Hollister furniture factory, from the belt line of the Northwestern road, had to be raised several feet for about ten rods, to correspond with the grade of the Interurban railway which crosses but a few rods from the factory.

This morning a force of workmen began putting in a second track on North Franklin street between Wall and West Bluff streets. This is for a siding and is necessary for switching purposes.

The company is now looking for a building on North Franklin street that can be used for a passenger station but the building has not been selected.

The sub-station in the Hugunin farm, about two miles south of this city is finished and is now ready for the machine which is now ready to be taken from Janesville. It having been there several weeks.

## NEWS OF THE CITY IN BRIEF.

Marriage Licenses: County Clerk F. P. Starr issued a marriage license today to Oscar Johnson and Alida Samp, both of Beloit.

No Cases in Court: There was not a single case before the circuit, probate or municipal courts today.

Meet Tonight: The Epworth League of the First M. E. church will hold a business meeting and social in the church parlors this evening.

More Water Pipes: The Water Co. have distributed pipes along North High street from Milwaukee street north to West Bluff street, where a new fire hydrant will be put in near the wholesale grocery building.

Pipes Laid: The Janesville Water Co. have finished laying a four-inch water main on North Bluff street, from Prospect avenue, southward to North First street, where a fire hydrant has been placed at the corner near Kemmerer & Tarrant's livery barn.

New Sewer Laid: The Janesville Machine Co. has nearly completed the laying of a 12-inch sewer pipe on Center street, with connections with the various buildings of the company. This is a good thing for the company, and promotes cleanliness, as some departments use considerable water.

Macadam Work: Brown & Company who have the contract for macadamizing South Jackson street, have nearly finished that work, they having finished three blocks and the fourth is well under way and will be nearly completed by tomorrow night.

Teachers' Examinations: County Supt. William Ross is conducting the quarterly teachers' examinations at the High school building today. There are six young people who are writing for the coveted parchments which will entitle them to teach school in the district over which Supt. Ross has charge.

Finished Planting: Paul Rudolph, the well known grocer and leaf tobacco dealer of this city, has finished planting 300 cases of corn on his dairy far min the town of LaPrarie. The corn will be cut while green and converted into ensilage. Seven teams which have been assisting in the hilling and cultivation have returned to the city.

Moved Offices: The Jeffris Co. have moved their office from the main building on N. River street, across the same street to the building formerly occupied by the fire department, and recently purchased by Jeffris. A fine office has been fitted up with plenty of room for its many desks. The former offices have been torn out of the main building and the space utilized for machinery.

Building Growing: The large two story and basement building being constructed by the New Doty Mfg. Co., just north of the Isabelle factory, begins to assume the dimensions of a good-sized structure. The basement and walls for the first story are up and the floor timbers for the second story are being put in place to day.

## A Strong Man

Is strong all over. No man can be strong who is suffering from indigestion or some other disease of the stomach and its associated organs of digestion and nutrition. For

when the stomach is diseased there is a loss of the nutrition contained in food, which is the source of all physical strength.

When a man doesn't feel just right, when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous and irritable, he is losing the nutrition needed to make strength.

Such a man needs to use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, stimulates the liver, nourishes the nerves, and so gives health and strength to the whole body.

Mr. Thomas A. Swartz, of Sub. Station C, Columbus, Ohio, says: "I was taken very sick with severe headache, then cramps in the stomach and my food would not digest, then kidney and liver trouble and my back got weak so I could scarcely get around. The more I doctored, the worse I got until six years passed. I could not work, I could not go to school, I could not sit up, I could not sleep, I could not eat. Then one of my neighbors said, 'Take my advice and take Dr. Pierce's Golden Medical Discovery and make a new man out of yourself.' The first bottle helped me and after I had taken eight bottles in about six weeks I was weighed and found I had gained twenty-seven (27) pounds, and I am in good and healthy to-day, think, as I ever was."

Dr. Pierce's Pleasant Pellets cure constipation.

INSTITUTE FOR  
SCHOOL TEACHERS

A Three Weeks' Session Will Open at the High School Building July 14.

School teachers in Rock county will have the benefit again this year of a teachers' institute to be held at the High school building in this city, conducted under the joint supervision of County Superintendents William Ross and David Thorne. The two superintendent districts unite in holding the institute which has been established as an annual feature of school work.

The institute will open on Monday, July 14 and will continue for three weeks. It will be conducted by Prof. G. C. Schutte, of the Whitewater normal school, assisted by Principal R. E. Loveland, of Clinton, Miss. Harlette Holt of this city, and Principal Charles Hemmingway of Albany. Principal Hemmingway is a candidate for the position of county superintendent of the western district of Rock county and will doubtless be the successor of Supt. Ross, who does not desire to continue longer in the office.

It is expected that the institute of this year will be largely attended by the teachers throughout the country. For the past two years the institutes have been exceedingly successful and well-attended. The corps of instructors secured for this summer is especially efficient and splendid opportunities for advancement are offered the teachers of the county through these institutes.

Supt. Buell's Vacation

Considerable institute work will be done by Janesville teachers this summer. Supt. H. C. Buell will spend his entire vacation in educational work along various lines. He expects to attend the annual meeting of the National Educational association which will be held in Minneapolis, July 7 to 11 inclusive. On his return he will go to Monroe where he will conduct the teachers' institute for that county his work in Monroe beginning on July 14 and continuing two weeks. This will be followed by the two week's session of the Fond du Lac institute where he will also be the principal conductor after which he will go to Portage and assist with the institute there for one week. This makes five weeks of institute work, lasting until the latter part of August, for Supt. Buell.

Other Engagements

Miss Gertrude Zeininger has been engaged for three weeks in the institute at Madison, which opens on July 14, and Miss Harlette Holt will spend five weeks in institute work, following the three weeks in this city with two weeks at Elkhorn.

WOOD-COOL

Miss Elizabeth E. Wood and S. G. Cool, well-known young people of this city, were happily married at the Holy Name cathedral in Chicago yesterday afternoon at five o'clock. The bridal attendants were Miss Anna Wood and J. J. Wood, a sister and brother of the bride and the ceremony was solemnized by Rev. Father M. J. O'Brien. A wedding lunch was served at the home of Mr. and Mrs. B. J. Conlon, 18 Lincoln Park boulevard, after the ceremony. The young couple will make their home in this city where they will have the best wishes of many friends.

WOODMAN-DAY

The marriage of Maud Elizabeth Woodman and John Warren Day will be solemnized at the home of the bride's parents, Mr. and Mrs. C. B. Woodman, LaPrairie, Wednesday afternoon, June 25. Mr. Day and his bride will make their home in Austin, Ill.

Brussels, June 20.—Mr. Reitz, formerly state secretary of the Transvaal, and Gen. Lucas Meyer purpose making a tour of the United States to collect money for the poor Boer families.

Declines Philippine Office.

Jackson, Mich., June 20.—Charles H. Smith of this city, who was recently appointed to a judgeship in the Philippine Islands, has declined the office.

Four Americans Missing.

Manila, June 20.—Grave fears are entertained for the safety of four American school teachers of Cebu. They left their homes June 1 and have not been heard from since.
